

MUSIC TECHNOLOGY

BASIC CERTIFICATE (BC)

The Basic Certificate in Music Technology offers study of techniques and standards for careers as a recording engineer, producer, professional musician, or composer/arranger. The Basic Certificate can lead to employment with such businesses as advertising agencies, recording studios, recording companies, video game companies, publishing companies, radio stations, or as a free-lance artist. The field is highly competitive, but employment opportunities are expanding rapidly.

(26 credit hours):
